HANDMADE BRICK COLLECTION

DOMUS

LOHASAU.COM

Our Handmade Bricks collection includes bricks of hand-molded textures to naturally rippling textures. LOHAS Australia supplies a wide range of colours, textures and sizes of European handmade bricks that can present different moments in history.

Handmade facing bricks are more playful in shape and surface that provide an exclusive look to your project. The beauty of history comes to life with a memorable hand-shaped facing brick in your project.

Hand-molded stone

Authentic look

Rounded corners

Modern harmonious

-

Domus is a hand-molded brick with a matt surface and rounded corners. As an extra after-treatment, this perfectly harmonious facing brick is given a thin layer of limestone. This gives it its authentic character, a natural look with an original texture.

Natural classic

What look do you want to give your future project? A soft idyllic look or an ultra-modern feel? Both are possible with modern gray and even earth-colored tones. When you combine, you get an even better result. Let the façade be added in a matching color and your building project will have a natural look, in fresh and matt tones.

Multi-purpose

Domus is the ideal partner for any construction project. If it now it concerns a new construction or a renovation. This stone is available in the traditional sizes M50 and WFD. The color Casa Lena is supplied ready for use wildly. In addition, the Domus stones are too available as brick slips. Consult our website for more info.
