HANDMADE BRICK COLLECTION

MILOSA

LOHASAU.COM

Our Handmade Bricks collection includes bricks of hand-molded textures to naturally rippling textures. LOHAS Australia supplies a wide range of colours, textures and sizes of European handmade bricks that can present different moments in history.

Handmade facing bricks are more playful in shape and surface that provide an exclusive look to your project. The beauty of history comes to life with a memorable hand-shaped facing brick in your project.

Engobe finish

Shine and matte
nuances

Smooth, unsanded and
slightly planed

Sleek facade

Milosa is a sleek scrubber stone for facades with a pure line. The planed brick has a strikingly regular shape and a smooth, sand-free surface texture. Milosa's modern look is the result of a natural mix of clay and water, during a unique production process.

Natural colours

The inspiration for the bright Milosa color palette comes from nature. In addition, an engobe, a thin layer of clay, was applied to the stone. This creates a fascinating play of light between gloss and matt. The nuances of ocher, red and brown tones give any construction project one soft appearance.

Custom facade

Milosa is for both new construction and renovation the exquisite facing brick. It is available in the traditional WF and WFD format. Finishing your facade with Milosa brick slips? That is also possible, these are on request to obtain.
